DEFENCE LAUNCHES STRONG ATTACK

PLUNGES INTO RIVER

20 Children Die In Bus Crackup

PRESTONSBURG, Ky. (AP)—A school bus carrying an estimated 38 children struck a wrecker, sideswiped an automobile, then plunged into a fork of the small Sandy River near here today.

State police feared at least 20 children and the bus driver, John Alex Derossiet, were drowned in 30 feet of water. Sixteen others were known to have escaped through a rear door. Six of them were admitted to hospital.

CPA May Alter Flight Operations

VANCOUVER (CP)—President Grant McConachie of Canadian Pacific Airlines says the pattern of CPA operations in northern British Columbia will be altered if CPA gets permission to operate scheduled transcontinental flights.

Mr. McConachie said in an interview Thursday the CPA northern B.C. service would be re-planned to connect at Edmonton with the proposed mainline service for which the airline is seeking federal government approval.

Sweden Routes Norway

OSLO, Norway (CP)—Defending champion Sweden, ramming home five goals in the second period, routed Norway 9-0 today in the second game of the world hockey championships.

A fast-skating Norwegian team held the powerful Swedish entry scoreless in the first period, but with a minute to go Norwegian goalie Loring Willfadt was hit under the eye by a hard drive. He was led off the ice, blood streaming down over his cheek.

He returned to action at the 14-minute mark of the second period, with a big patch of plaster under his eye. But the injury seemed to take the steam out of the Norwegians, and their play collapsed.

In the championship's opening game, Czechoslovakia defeated Finland 5-1.

HORTON CLAIMS VICTORY ON SKAHA LAKE WATER ISSUE

Skaha Lake area residents will get domestic water service without paying any sort of foot-frontage charge, according to a telegram to the Herald from John Horton, leader of a ratepayers' delegation to Victoria.

The telegram reads: "Our delegation received by Minister Black. We get water. No separation right now, no foot frontage. Be home Saturday."

The delegation was in support of a recent brief from the ratepayers threatening that unless the water mains were financed either by general bylaw or out of current revenue, the Skaha Lake area would secede from the city demanding \$10 million for taxes paid since becoming a part of the municipality.

City council's latest proposal to levy foot-frontage charge only on properties for which connections are requested, has not satisfied the ratepayers who had previously defeated a local improvement financing plan.

City officials said they could not comment on the telegram until further details were known.

Sets Probe Into Driver Licence Bribery Racket

TORONTO (CP)—Deputy Transport Minister D. J. Collins of Ontario has ordered a province-wide investigation into irregularities in the issuing of drivers' licences.

The order was made Thursday night after two persons were arrested in connection with a bribery racket that police said has obtained nearly 150 licences for people who did not pass tests.

Facing four charges of falsifying certificates, drivers are Hubert Levy, 45, an examiner appointed by the transport department to

worst involving a school bus in U.S. history. More than four hours after the accident, rescue workers still were unable to locate the bus. Small boats cruised the area searching for bodies.

"I was sitting directly behind the driver when we went into the water," said Isaac Vanderpool, one of the survivors. "Some little kid opened the emergency door and we began scrambling outside."

Vanderpool, who estimated the bus contained 38 passengers including himself, said the "last thing I saw was the driver sitting behind the wheel. I don't think he got out."

The driver of the wrecker, Donald Horn, said he answered a call to pull a truck out of a ditch on the side of the road opposite the stream.

RIVER HIGH

"I was trying to pull it across the highway," he continued, "when the bus rounded a curve and struck my wrecker from the rear." Horn said the bus then veered into a parked car and headed for the river.

Most of the youngsters aboard were high school students from the Cow Creek area—a mining community. The bus also was bringing a number of children to elementary schools at Prestonsburg, about 82 miles southwest of Huntington, W. Va.

Levisa Fork, where the bus sank, is 20 feet above normal stage because of heavy rains. Respirators and other equipment were taken to the scene along with wreckers and salvage equipment.

State police said the bus, after rolling to the edge of the bank, halted momentarily, then rolled into the water.

Missing Bride Found in River

NEW YORK (AP)—The body of a young woman roughly answering the description of Brooklyn's missing bride-to-be, Irene Arzadi, was recovered in the Hudson River today. Police began a check on what seemed to be identical clothing.

The body was discovered near a pier at 12:40 p.m. Officers supplied no further details. Miss Arzadi disappeared from her Brooklyn neighborhood last Saturday a few hours before she was to have been married.

Scores of police have been conducting a sweeping search for her, without a single clue reported until today.

COLDWELL LEAVES, FULTON ARRIVES IN CITY

National CCF party leader M. J. Coldwell, right, chats with Owen L. Jones, CCF candidate for Okanagan-Boundary at the election campaign meeting in the Legion Hall last night where Mr. Coldwell was principal speaker. Mr. Coldwell leaves Penticton this afternoon for Vancouver.

Hon. David Fulton, minister of justice and immigration and Progressive Conservative MP for Kamloops in the last federal house, waves to his welcoming delegation as he arrives at Penticton Airport for his luncheon speaking engagement in support of David Pugh, PC candidate for Okanagan-Boundary.

Gas Pipeline Fortunes Said 'Scandal, Fantastic'

M. J. Coldwell, national leader of the CCF party, told a Penticton audience last night that the Progressive Conservative government's changed attitude towards the Trans Canada Pipe Line agreement, constituted "the greatest betrayal of the Canadian people since Confederation."

Speaking to a capacity audience of 400 persons at a public meeting in the Legion Hall in support of Okanagan-Boundary CCF candidate Owen L. Jones of Kelowna, Mr. Coldwell recalled that Prime Minister John Diefenbaker, while still an opposition member, had called the pipeline agreement a "nefarious plot" but did nothing to stop it once his government took office.

He charged that appointment of a royal commission into the pipeline deal was an attempt to prevent discussion of it "both in the House and on the hustings."

He described as "a national scandal" the "fantastic fortunes" made by promoters of natural gas lines and called for action to prevent such deals in future. He said Frank McMahon of Calgary alone, McMahon of Calgary alone, could turn an initial investment of \$7,700 into more than \$1 million in stock profits through his connection with Westcoast Transmission Co. Gains by other promoters of the pipeline which carries Peace River gas from northwestern Alberta into the Vancouver area and the Pacific Northwest region of the U.S., raise total capital gains on Westcoast Transmission to about \$100 million, Mr. Coldwell said.

NATIONAL SCANDAL

"I say that this is a national scandal. A great moral wrong has been done — and I am not saying that anything illegal was done. It is time our government removed the opportunity for such exploitation."

Mr. Coldwell said "the guilty men" are not so much the Westcoast promoters as the "old-line politicians who gave them the opportunity for such gains."

Neither the Liberals nor the Conservatives would remove the opportunity for such exploitation, he said. "They defend such practices to the hilt. Both of them voted against the two steps that the CCF suggested would protect the public — public ownership of these great pipeline monopolies"

and a capital gains tax on huge speculative profits."

In the remainder of his hard-hitting address, directed almost entirely against the Conservatives, Mr. Coldwell drew several bursts of applause with comments on farm policies, House procedure and trade.

He scored the Conservatives

for claiming their position as a minority government was intolerable whereas their bills actually passed with "unprecedented majorities."

He recalled that the last time a federal election was held, in March, was in 1949 when a bill developed on the Prairies on election day, March 25.

"If it's a bad day this time, the rural vote won't be able to get out and we so largely depend on the farm vote," Mr. Coldwell observed. "I'm not accusing anybody but after many years in politics, I do get suspicious occasionally."

He contended that the new Farm Prices Stabilization Act was far inadequate for assisting the farmer and should be replaced by a system of parity prices which would guarantee returns that would cover the farmer's costs of production. The loss of purchasing power in rural areas resulting from poor farm income is the cause of wide-scale unemployment in the cities, he said.

To bolster the economy, Canada needs to increase its trade particularly with the Orient where recognition of Red China is a first prerequisite.

He agreed that China's communist government was an undesirable one but could not see why that should prevent anyone from recognizing that it exists. He believed Canada hasn't recognized Red China because "John Foster Dulles doesn't want us to."

Ten high-ranking representatives of the Roman Catholic, Protestant, Jewish and orthodox faiths signed a hand-penned scroll Thursday night to dramatize their demand for a public cleanup.

Paul Emile Cardinal Leger, Roman Catholic archbishop of Montreal, summoned the religious leaders to "Join me in this common declaration of our purpose." Rt. Rev. John Dixon, Anglican bishop of Montreal, and Rabbi S. Herschorn, chief rabbi of the Jewish Community Council, were among the 10 leaders who responded.

There have been many flying saucer stories originating in many parts of the world, but there have been few photographs to substantiate the stories of the saucer-viewers. But here is one from Brazil and the word is that it is but one of several photos taken from the deck of the Brazilian navy survey ship Almirante Sal-

Prolonged Board Hearing Scored

OTTAWA (CP)—A union representative on a federal conciliation board which investigated a west coast labor dispute has charged that hearings on the dispute have been "deliberately prolonged unnecessarily."

The accusation was made by Owen E. Mason of Vancouver, a member of a board which investigated a wage dispute between Canadian National Steamship Company Limited and the CPR's British Columbia Coast Steamship Service, and 385 unlicensed seamen employed by the two companies. The seamen are members of the Seafarers' International Union of North America, Canadian district (CLC).

Mr. Mason said that due to the prolonging of the hearings "a sum considerably in excess of \$1,000 of the taxpayers' money has gone down the drain, in addition to a waste of man-hours I, at least, could ill afford."

VARIED PROPOSALS

Mr. Mason and the other two board members, F. E. Harrison of Vancouver, chairman, and R. A. Mahoney of Vancouver, company representative, filed separate reports on the dispute. The reports were made public here Thursday by the labor department.

Mr. Harrison recommended the parties sign a two-year agreement dating from Sept. 15, 1957, to Sept. 15, 1959. He proposed a wage increase of 16 per cent dating from last Sept. 15 to Sept. 15, 1958, and a further nine-per-cent boost from Sept. 15, 1958, to Sept. 15, 1959.

Crown Witness Cross-Examined

By H. L. JONES
Canadian Press Staff Writer

VANCOUVER (CP)—The defence in the Sommers bribery-conspiracy hearing began a strong attack today on the evidence of a crown witness that former lands and forests minister Robert Sommers gave special attention to a forest management licence application by a big timber firm now charged in the case.

The licence involved is No. 22, June, 1951. McKinnon said his files didn't show an application on that date.

Earlier he reviewed for the court the dates of various applications by other firms and the dates they were finally granted.

The witness told Alfred Bull, counsel for the C. D. Shultz Company Limited, that licence applications by Tahsis Lumber, Empire Mills and Church Sawmills all had been handled in the "normal manner"—that is handled through the forestry department.

Walter Owen, B.C. Forest Products counsel, had sharp words today with McKinnon over his testimony that the licence was first applied for in January, 1954. He finally got an admission from the witness that there had been other B.C. Forest Products applications prior to that time.

At one point the lawyer said "You have chosen an unfortunate date for some reason not yet disclosed."

McKinnon replied "There is no discrimination, yesterday —"

At this point he was sharply interrupted by Owen and told to answer the question as put.

Mr. Owen said B.C. Forest Products made an application in

Soviet Submarine Sighted by Navy

JACKSONVILLE, Fla. (AP)—The Jacksonville Journal says a U.S. Navy plane sighted a Russian submarine on the surface recently off the coast of Florida.

The paper says also that an American navy vessel made a contact with five subs under water during recent anti-submarine manoeuvres involving U.S. and Canadian vessels off the Florida coast.

The navy at Washington Thursday said it had reports of a sub sighting and that a number of vessels have been sent to investigate.

ALBERTA TEACHERS

Uniform Salary Scale Proposed

By DONALD HANRIGHT
Canadian Press Staff Writer

EDMONTON (CP)—An Alberta royal commission has recommended a uniform province-wide salary scale for teachers and withdrawal of their right to strike over pay disputes.

It calls for creation of a three-man government board to have full jurisdiction of teachers' salaries. The board's decisions

would be binding on both teachers and school trustees.

The commission chairman was G. M. Blackstock, Edmonton lawyer who also served on Alberta's 1956 commission on metropolitan development in Edmonton and Calgary. Other members were Dr. H. E. Smith, former dean of education at the University of Alberta, and John Harvie, former Alberta deputy minister of lands and forests.

MAY NOT BE IMPLEMENTED

The commission's 135-page report was tabled in the legislature Thursday by Education Minister Anlborg, who said later outside the House that "there won't be any legislation to implement it at this session, if at all."

The commission said it found detailed evidence which "clearly indicates that the present system of teachers' salary negotiations is inadequate and outmoded. . . It is productive of inordinate delays, of ill-will and antagonism between teachers and school boards."

The uniform scale would eliminate the local teacher-trustee bargaining which is "distasteful" to teachers. It would increase teachers' morale and the supply of teachers. But it also probably would increase the cost of salaries.

U.S. Ambassador Summoned by Reds

MOSCOW (AP)—U.S. Ambassador Llewellyn Thompson was summoned to the foreign ministry late today but declined to comment on the subject of the visit. There was speculation his visit was connected with opening moves through diplomatic channels toward a summit conference between the Soviet Union and the West.

Thompson told correspondents he and Nikita Khrushchev, Soviet Communist party secretary, held a long discussion at a Kremlin reception Sunday about many subjects. He declined to give details.

IF IT'S NOT A FLYING SAUCER, WHAT IS IT?

There have been many flying saucer stories originating in many parts of the world, but there have been few photographs to substantiate the stories of the saucer-viewers. But here is one from Brazil and the word is that it is but one of several photos taken from the deck of the Brazilian navy survey ship Almirante Sal-

danha when she was cruising off Trinidad Island. Many persons on board testify that they saw the saucer, or whatever it was, moving across the sky. Most flying saucer stories, on investigation, prove to be illusions or fakes but some, including this latest report, have not as yet been explained.

DO IT NOW!

The nice weather is now upon us and soon you will be taking to the open road. BUT, before you do, be sure that your car is all set to go on those spring and summer trips. Have it safety checked and have those many jobs on those various points of the car checked by experts. Here is your guide to the many qualified service people that will make your car road-ready for spring and summer.

Body & Fender WORK

When your car gets bumped in, let us bump it out. We can't change the age of your car, but we can certainly change its appearance — for the better, get an estimate on a new paint job from experts.

Baby Sitters Left In Parents' Job

Baby sitters are bringing up half the present generation of children while parents "rush around trying to rectify something else," according to Pentiction High School teacher Walter Bobbitt.

One of four members of a panel discussing the needs of the Canadian educational system Mr. Bobbitt said in his opinion the home was falling down badly in its share of the task of education. "Education begins at home and is a family affair. Our system is breaking down largely because of the poor attitude of parents," he said.

Editor Outlines Work of Brannan Lake Boys' School

The work of Brannan Lake School for boys, seven miles north of Nanaimo on Vancouver Island, was outlined to the regular monthly supper meeting of St. Saviour's Anglican Men's Club, by Jim Hume, editor of the Herald.

City Two Years Without Fatality

Karl Von Brevern, co-chairman of the Pentiction Safety Council, disclosed at a meeting this week that the city had just passed the two year fatality free mark.

Oyama Cattleman Named to Advisory Board on Prices

V. E. Ellison of Oyama, president of the B.C. Federation of Agriculture, has been named to an advisory committee under the federal Agricultural Stabilization Act. The new act goes into effect Monday.

The new act will guarantee farmers a minimum of 80 per cent of a basic price — the average in the past 10 years — for cattle, hogs, sheep, butter, cheese, eggs and wheat, oats and barley except in the Canadian Wheat Board areas.

\$200 Damage In Collision

An accident at the corner of Government Street and Pentiction Avenue Thursday morning caused an estimated \$200 damage to two Pentiction owned cars.

DEADLINE FOR NEW PLATES

Time is fast running out for purchase of new motor vehicle licence plates.

In Pentiction those who have not yet picked up their new plates, have only till 5 p.m. today to do so if they want to operate their car during the weekend. The Motor Vehicle Branch office here will close at that time and will not reopen till 9 a.m. Monday.

Vehicles without new plates cannot be operated after midnight tonight. RCMP said they would keep a sharp lookout for any such vehicles on the road or left parked along any highway, street, lane or public right-of-way.

Anyone who has not procured new plates by 5 p.m. today, therefore, is advised to leave his vehicle on his own property till properly licensed.

Sale of new licence plates in Pentiction has been running about even with last year.

Some 200 passenger plates and 100 commercial plates remained to be picked up this morning.

Youths Get Prison Terms For Robbery

SUMMERLAND—Lorne Ronald Cowan, 17, and Roger James Matkovich, 19, both pleaded guilty to a charge of robbery with violence when they appeared before Magistrate R. A. Johnston in Summerland police court Wednesday.

The charge was laid by the RCMP after an investigation of the offence which occurred on the evening of Dec. 24, 1957.

Cowan was sentenced to serve eight months definite and 11 months indeterminate, while Matkovich was sentenced to six months definite and eight months indeterminate. Both will be sent to the Young Offenders Unit at Burnaby.

Earlier two other youths, Lawrence Everett A. Brawner and William C. McClure, were sentenced on the same charge. Reginald Smith was taken to the lookout on Highway 97 above Crescent Beach where he was beaten and robbed of \$19.19.

Parity Prices, Crop Insurance, CCF Goals

Parity prices for fruit and other agricultural products and comprehensive crop insurance coverage were two of the goals in a six-point program of agricultural aid which Okanagan - Boundary CCF candidate Owen L. Jones said he would work for in a public address at Pentiction last night.

Sharing the platform with M. J. Caldwell, national CCF leader, Mr. Jones in his first campaign address for the March 31 federal election, said the Conservatives' new farm price stabilization bill was "totally inadequate" since it would guarantee prices of only 80 per cent of parity over the previous 10 years.

As far as the Okanagan is concerned, he said it was not known yet whether fruit prices will be covered in the bill.

What is needed, Mr. Jones said, is "100 per cent parity on a forward pricing system such as they have in England whereby growers and government representatives would meet at least once a year to set prices for the coming year that would guarantee production to cover at least costs of production."

The CCF goal of crop insurance would extend coverage against all kinds of potential losses to the farmer.

The CCF party also wants national marketing boards set up at growers' request to bring stability to the "trottering industry."

Second Postgrad To Study at "Farm"

SUMMERLAND — Word has been received at the Experimental Farm here that a second postgraduate fellowship has been awarded for studies at the processing laboratory. This is the only processing laboratory in Canada which receives postgraduate students.

Dr. Claude Lamont, first postgraduate student at the processing lab, left on Tuesday to return to Belgium after a year's postgraduate study. He has been working on the isolation of pigments in berry fruits and studying the cause of color changes.

Dr. Lamont files from Spokane to Detroit, will visit in Ohio, and sail on Saturday from New York on the Queen Elizabeth.

here" as they have done in Australia and New Zealand.

The CCF program of scientific and technical assistance would deal directly with the individual farmer giving him direct information and assistance regarding his particular conditions.

Other planks in the CCF agricultural platform are removal of "monopoly control over farm machinery" and a program of soil conservation where needed.

PRESS REBUKED
Mr. Jones took the "local press" to task for maintaining that Okanagan-Boundary might get better representation by voting for the candidate whose party had the best chance of forming the next government.

"God help the country where the government has taken sides against the people who didn't support it," he declared. "That's discrimination and corruption of the worst kind."

Mr. Jones said recent experience has shown that the poorest representative for any constituency, is the backbencher of a government party with overwhelming strength.

"Backbenchers can not be given a chance a speak whereas

an opposition member can speak at all times," he said. "The party in power will much sooner give way to an aggressive opposition member for fear of unfavorable publicity."

SPLINTER GROUPS

Noting another suggestion that the CCF is a splinter party and Canada should return to a two-party system, Mr. Jones said that under the same argument, if it were good to go from four parties to two, then to go from two parties to one would be even better.

Having had nine years of experience as MP for Okanagan-Boundary prior to last June 1957, Mr. Jones was confident that he knew the problems of the constituency and said that if elected he would do his best to represent everyone no matter how they voted.

Reviewing other problems of the South Okanagan, Mr. Jones said the mass of unemployment in the valley could be alleviated by a housing program to supply badly needed homes.

He also promised to support immediate development of the hydro power potential of the Columbia River.

Fluoridation a Great Success in Eastern Cities

An editorial in the Port Arthur News-Chronicle drew attention recently to the fact that though fluoridation of municipal water supplies has been debated in cities all over the North American continent, there is actually less room for debate than on any other public health problem.

Fluoridation has been endorsed as safe and beneficial by the medical, dental and public health professions, and the practice has been proven highly beneficial to dental health in a number of cities over a period of years. The fact that the opponents of fluoridation have been unable to point to a single harmful effect should be sufficient proof that none exists.

Evidence in favor of fluoridation is piling up as the practice continues and expands. The most recent report is that fluoridation has reduced tooth decay in Brantford's children by 66 per cent, a level that Dr. H. K. Brown, dental consultant to the Dominion Department of Public Health, claims to be the ultimate low in tooth decay.

Three check points have been used in the investigation of the effects of fluoridation—Sarnia, where the water is not fluoridated; Stratford, where the water is naturally fluoridated, and Brantford, where fluoridation was introduced in 1945. In that year, Brantford and Sarnia had a particularly high rate of tooth decay among school children. Dr. Brown reports, while Stratford had the lowest count of any city in the country.

Today, Dr. Brown notes, Sarnia's rate remains high while Brantford now equals Stratford in achieving the ultimate low.

That is the record of a treatment some people who oppose fluoridation call "poison". They base their argument on the fact that sodium fluoride is used in a type of rat poison, yet they choose to ignore the large number of pharmaceutical preparations that contain substances which, by themselves or in large quantities, are poisonous.

Many claim that fluoridation changes the taste of the water, damages lawns and causes itching of the skin. In one city where the water was fluoridated secretly no complaints were heard until the secret was released. Within hours phone calls and complaints were being received. The city council concerned weathered the storm and the city now drinks its fluoridated water without undue concern.

Others claim they lose their democratic rights when water is fluoridated in the city distributing system. Such people would doubtless support the Sons of Freedom in their refusal to send their children to school, and regard compulsory education as a communist plot.

Like vaccination, fluoridation will eventually come. Many prejudices have to be overcome, even as they had to be overcome by Dr. Edward Jenner when he first used his cow-pox vaccine.

Not to be Overlooked

Not all Canadians are living beyond their means; but the number who are is steadily increasing, and is being deliberately encouraged to increase by our governments.

Personal extravagance is being encouraged by our system of state welfare, which encourages the people to look to the government for all their needs while they spend their money on non-essential things. The government pays family allowances to people who can well afford to raise their own families, pays old-age pensions to people who don't need them, builds houses regardless of cost and rents them at less than economic rents to people who can well afford to pay for their own housing, forces all the people to insure against calamitous hospital bills that few of them will ever have to

incur, uses the taxpayers' money to support farm prices at more than the market will pay, and thus encourages the farmers to produce unwanted crops, encourages organized labor to demand constantly increasing wage rates without any corresponding increase in either the quantity or the quality of the work, cripples industry by taxing away the reserves on which its progress depends and discriminates against the consuming public by its policy of encouraging the forces that raise prices.

All these things are dust in the gears of industry, and unless something is done to stop them, they will surely lead us into a depression from which it will require heroic measures to extricate us.

—Rural Scene

DR. JEKYLL AND MR. HYDROGEN

LETTERS TO THE EDITOR

Observations of An Old Taxpayer

Sir: With regard to the drainage ditch on Green Avenue, this is costing the taxpayer lots of money. When Mayor Oliver was in that area he asked me about this matter and I told him that there was no problem at the top end (Lakeside Road) that there had not been any water in that portion for a number of years.

I also mentioned to Superintendent Spiller that there was no need of tile for at least 600 ft. but they put it in. Further down Green Avenue, where there is some drainage trouble, the city is putting in a cement ditch which will be covered with cement slab in places and pipe in other parts.

I asked about this and was told a cement ditch had to be put in on account of roots from brush growing there. What little brush is there, could be cut out and any growth coming up could be sprayed with chemicals and killed.

From my observation trees and brush don't send down their roots 4 feet into subsoil when there is ample moisture in the first 2 feet of soil. Part of the trouble this year has been due to the trouble of the drainage pipe being plugged by the city crew working there.

One other thing I noticed. Mr. Fujita had the 10 acres where the school is being built for over 20 years and had no trouble in getting the land at any time. This past season it was run by the Agriculture Class from the school. Ten acres of irrigation water was put on 5 acres and in the last two irrigations it was running in the same area continually without ever being moved. On one occasion I adjusted the flume where it was overflowing heavily.

I asked the ditchman Roy Dirks about turning the irrigation water on when no one was looking after it, he mentioned he had been ordered to turn it on.

When the drainage ditch was put in over 20 years ago it was lined with 2 inch planks on the lower end of Green Avenue (west). These were removed recently and looked to be in pretty good shape.

I wonder if the cement ditch will last any longer with the amount of alkali in the soil in that area, or whether if plankling treated with preservative would not have filled the hill and saved money for the taxpayer, and the rich fruit growers who are getting the magnificent prices of 3c per lb. for apricots and peaches and less than 2c per lb. for prunes?

Of course the boys at the city hall will tell you we will all be well off when we subdivide in a year or two.

While I am at it, I would like to know who is responsible for some of the boners (1) The pipe laid on Wilkie flats which blew up when water was turned on and had to be replaced; (2) The drainage ditch out at 4 mile which went haywire; (3) The building on Valley View road for the electric light department which must have cost plenty, 8 inch cement floor, 6 inch roof and built with cement blocks and fenced, and I suppose has equipment installed inside—this has been built for over two years and never been used.

How do the fruit growers feel about getting all agricultural land taken out of the city limits?

Being included in the city was the biggest fool mistake ever imposed on the grower.

—G. F. ROBINSON

Two Party System

Sir:

In about one month's time this district of Okanagan Boundary will again have to decide what representation it wishes to have in Ottawa. For many years, and for some unexplained reason, this riding has consistently voted in opposition to the government in power. Some years ago, perhaps this was understandable as the whole district was suffering from the depression. However, during the last two elections when we had an extremely strong Liberal Parliament in Ottawa no attempt whatever was made on the part of the voter in this riding to support that government, or even to strengthen the main opposition party. It is not surprising, therefore, that we—having no representation on the governing side got very little assistance when it was requested.

It is perfectly true that our elected member was, an excellent worker but common sense will tell anyone that the mere fact of this gentleman asking for something would have little effect. In June of 1957, having failed to return this member, who at least knew the ropes and could be of some use in small ways, the voter then decided it is true with a very small majority—to put in another member from a hitherto unknown political splinter party. We are now going to be asked on the 31st of March again to elect our representative. It would appear to me that if the voter would use his common sense he would support the man most likely to have a majority with him in Ottawa.

For myself, I have consistently voted for the man I thought would most likely be on the winning side of the house. Politics never took preeminence in my life over the good of the country or my own district. Some people may think this is wrong, politics to them has become a religion and because their fathers supported a party they in turn have voted that way often in spite of the fact that it was absolutely obvious their candidate, if elected, could be of little use to his country under the existing political power. The result has been that the two major parties have been fighting each other thereby allowing, in this district, one of the splinter parties to be elected on a majority vote.

It would seem to me, therefore, that when we vote it would be advisable for us to make up our minds which of the two old parties to support and I think that if one follows the trend of articles written in various papers across the country it is expected that the Canadian people being fair minded and sporting in their outlook will probably return the Conservative government; which government up to date has not been given a chance to show what it can do for our country. One thing we can be quite certain about is that they have shown their desire to assist the older people and the old soldiers. For many years these veterans have been asking to be allowed to earn a little more money and up to this time their requests have been ignored or permission has been given in such a way as to be useless to most of these veterans.

In closing, it is virtually impossible that the Conservative government could be held responsible for the lack of employment, the present fruit prices, the depression in major industries (automobile), in our country after such a short period of time in office.

I remain, Yours truly, "VOTER."

(Name and address supplied.)

life over the good of the country or my own district. RIRIE THOUGHT

The Ravens brought him bread and flesh in the morning and bread and flesh in the evening. I Kings 17:6.

Eddie Rickenbacker's life was saved when he was on a raft in the ocean by a sea bird that alighted and supplied him with food.

OTTAWA REPORT

Boom Coming This Summer

By PATRICK NICHOLSON
Special Correspondent to the Herald

Ottawa: How are we doing? The Dominion Bureau of Statistics has been issuing details in recent "daily bulletins" which show that we are doing quite well, thank you. And now the bankers and economists are predicting that, in spite of a background of gloom and worry at the beginning of the year, 1958 will be Canada's best year ever economically, with the boom bursting out all over again sometime during the summer.

Preliminary figures of our foreign trade show that our total exports boomed to a level even higher than in 1956. At the same time our imports fell slightly, entirely due to more restraint in our purchases from the United States. The net result of these two trends of course was that our adverse balance, namely the excess of our imports over our exports, fell significantly — although still not enough.

Our purchases from Britain rose slightly, from about seven per cent of our total foreign purchases in 1956 to about nine per cent last year. This trend will result in Britain spending her extra earnings of Canadian dollars on Canadian exports.

WORK AND WAGES
Much publicity has been given to the fact that the number of persons looking for work has risen. First, that we have had more people employed at work over recent months than ever before at the same time of year. Second, average weekly wage has hit an all-time new high in December, reaching an impressive figure of \$69.24 or 45 cents higher than the average figure a year earlier.

With everything going up, it is reasonable that the number of babies born during 1957 should also hit a record. At 475,000 births during the year, the number of anxious fathers pacing the corridors of the maternity wards rose by 5 per cent — or don't fathers do that any more?

Talking of hospitals, and here the statistics seem to be lagging behind a little, during 1956, 2,200,000 Canadian, or one person of every eight in the country, entered hospital during the year, and stayed an average of ten

days. This showed an increase of nearly ten per cent during the year. On a typical day, 59,325 adults and children, or 37 out of every 10,000 Canadians, were lying in a hospital bed.

In spite of a big boost in the last two months of 1957, the number of homes started during the year was 5,000 less than in the previous year, at a total of 122,000. And the number of homes completed was substantially reduced, at 117,000 compared to the record of 136,000 in 1956. House building was proceeding at a record pace at year's end, but had been severely slowed down in the first part of the year through the tight money situation.

CAR SALES DROOP
After the construction industry, our automobile industry is the country's second largest manufacturer, if all the ancillary plants are taken into account. The tight money policy so rigidly enforced in the early part of the year was reflected also in sharply reduced sales of new cars and trucks. Total sales of all passenger cars were 381,123 compared to 408,233 in the previous year. Commercial vehicle took a proportionally worse beating, with new vehicle sales falling from 51,588 to 46,197.

In the "new model month" of October, Chevrolet led the parade, Canada hit parade as our best selling car, just nosing out Ford which had won that palm the previous year. Then came Pontiac, Dodge, Plymouth and Meteor in that order, among Canadian models. But the surprise was the jump in sales of Volkswagens, from 1,529 in the previous October to 2,313 in October, 1957, to place that little German car immigrant in fifth place, selling just less than Dodge but more than Plymouth.

It was not a good year for the lumber industry either, by comparison with 1956. But 1957 ended up generally as a much better year for Canadians than some of the prophets had predicted; and the signs point to 1958 becoming our best year ever, with a sharp up-turn in trade during the summer.

Hero Worshipping Can Be Overdone

By Herman N. Bundesen, M.D.

Don't be a hero worshipper. We all have our favorite actors, actresses and sports stars. Some perform better than others in each individual's judgment. Admire their talent and concede their ability, but let it go at that. Worshipping movie and television stars, musicians, singers and professional athletes can actually be overdone.

WASTED TIME

Too much time can be spent writing fan letters, forming fan clubs, dreaming of a glamorized idol instead of being put on some more important endeavor.

We expect a certain amount of this hero worship from youngsters and adolescents. In fact, millions of dollars are spent on advertising just to create it. But some of these inactive youngsters would be far better off participating actively in sports, learning to cook, or developing some kind of hobby.

QUESTION AND ANSWER

D.W.: Since I have read that hormones are given to animals to make them fatter, I am worried that eating animals that have been given hormones may affect me? Is there any danger of this?

Answer: It is not likely that you will consume enough meat from animals so treated to cause you any trouble.

INTERPRETING THE NEWS

U.K. Socialists Seek Nuclear Ban

By KEN METHALL
Canadian Press Staff Writer

Britain's Labor party is involved in a struggle that may have far-reaching effects on the West's ability to maintain the nuclear deterrent.

Five months after the party's annual conference reluctantly supported retention of the hydrogen bomb, the executive and leaders of the powerful Trades Union Congress are meeting to draft a new 11-bomb policy. It is expected to call on Britain to give a moral lead to the world by stopping nuclear tests.

The Daily Herald, semi-official spokesman for the party, says it is "now practically settled" that the declaration will also urge that United States bombers based in Britain be prevented from carrying nuclear bombs during training flights and that British bases for the American Thor intermed-

late-range ballistic missile be delayed at least until after a summit meeting with Russia.

NO SAFETY

The policy review reflects mounting uneasiness among the rank-and-file over the nuclear armament race. It is also interpreted as a victory for Frank Cousins, general secretary of the TUC, over both right-wing elements of the Labor party and Labor's "shadow" foreign minister, Aneurin Bevan.

At the annual conference in Brighton last October, Cousins made a passionate plea against the 11-bomb. But Bevan, once an outspoken critic of Britain's drive to develop her own nuclear weapons, successfully urged its retention in order that any future Labor minister "will not be sent naked into the council chambers of the world."

Cousins bowed to the Bevan line at Brighton rather than risk a party split, but he has made no secret of his personal belief that the 11-bomb is unable to clothe Britain in the garments of either

BACKWARD GLANCE

10 YEARS AGO
February, 1948 — Very Rev. F. P. Clark, M.A., Dean of the Kootenay Diocese, and administrator of the diocese, was a visitor to Penticton last week. A distinguished visitor to Penticton last week was Mrs. W. Blockside, of Weston Super Mare, England who after visiting her daughter in Fredericton, New Brunswick has spent the past few months renewing acquaintances with many of the R.C.A.F. personnel she entertained at her home during the war.

20 YEARS AGO
February, 1938 — T. G. Norris, K.C., of Vancouver, passed through Penticton Sunday night en route to the coast. . . John Lief, of Skamania, was a visitor in Penticton on Wednesday. . . Mrs. O. Kenting of Peachland, spent several days in Penticton last weekend. . . Michael Murphy and Mel Routh were successful in bagging a large eagle on Sunday afternoon near Peachland.

30 YEARS AGO
February, 1928 — Penticton was shocked to receive the news last weekend that Dr. J. E. Affleck who practiced here for six or seven years with Dr. R. B. White, had passed away at Nelson. . . several residents of Penticton, particularly in the Skaha Lake area, reported a slight earthquake about five o'clock on Tuesday morning.

40 YEARS AGO
February, 1918 — The annual meeting of the Okanagan Telephone Company held on Feb. 20 dissolved services would be provided. . . Last night the members of the Methodist Church entertained three of Penticton's fighting men, who have recently returned from the front. They are Corp. S. Feltham, and Ptes. J. H. Glaes and Sutcliffe P. Howell.

Mine Closure Regrettable Says Kiernan

VICTORIA — (CP) — Mines Minister Kenneth Kiernan said Thursday the close-down decision of Britannia Copper Mines was regrettable. He said the subsidy of \$20,000 a month — \$16,000 by the federal government and the rest by the provincial body — was due to run out May 1. Mr. Kiernan said there was "nothing more" that could be done. "We can't make the company keep operating."

EDUCATION

IS EVERYBODY'S BUSINESS

March 2 to 8 is
Education
Week

Why Education Week?

The purpose of Education Week is to encourage Canadians to examine their educational system, discuss it and help in its development. Criticism by parents, ratepayers, and teachers, provided it is sincere and based upon accurate information, can make a very valuable contribution to our schools, our teaching methods and the effectiveness of education in today's changing world.

In these times of high taxes for defence and social security, and a steadily climbing cost of living, it is easy to fall into the dangerous state of taking education for granted. Education Week is a time for every citizen to clarify his or her thinking on the real purposes of education — to focus the spotlight on all its aspects and to strengthen this bulwark of our democracy.

Your interest, your ideas, your active participation are vital to the improvement of education in Canada. The home, the church, the school, the farm, industry and commerce. Management and labour, all have responsibilities in this continuing process. Education is Everybody's Business.

Education Is Big Business In Penticton

EDUCATION IS WITHOUT A DOUBT BIG BUSINESS IN PENTICTON. SCHOOL DISTRICT No. 15 AND WE HAVE THE FIGURES TO PROVE IT

In Penticton we have a total school enrollment of 3,085 pupils, 1,846 of which are in the elementary schools, and the other 1,239 pupils are in the Junior-Senior High School. To teach these pupils Penticton School Board has hired 105 teachers; not to include the School Board Secretary-Treasurer or his Secretary. We find these pupils in one primary school and six elementary schools and one Junior-Senior High School.

What facts have we to show the cost involved in educating our children? A School Board report shows that the value of school property in our city is set at \$2,182,892.00. Last year the cost of education for School District Number 15 was \$737,200.00.

Education In Canada

The annual budget for operation and maintenance exceeds \$700,000,000 and the annual cost of construction of new schools is currently close to \$300,000,000. Averaged over every Canadian from the youngest infant to the oldest inhabitant the total annual cost is now approximately \$50 per head. Financing education is one of the biggest problems today facing all levels of government — local, provincial, and federal.

EDUCATION IS EVERYBODY'S BUSINESS

It is sometimes said that what is Everybody's Business is Nobody's Business. This is not true of education in Canada.

OVER 100,000 teachers, SEVERAL THOUSAND school board officials and HUNDREDS of provincial department officials are giving fulltime service to approximately 3,500,000 students enrolled in Canada's elementary and secondary schools. Almost 100,000 public-spirited men and women are giving long hours of voluntary service as members of Canada's 22,000 school boards and over 250,000 parents have allied themselves with home and school and parent-teacher associations actively promoting better schools for Canadian children.

Add to these the thousands of citizens serving on education committees of service clubs, board of trade, agricultural organizations, business, industrial and labor bodies, and the many women's organizations across the country, and it must be seen that there is no business receiving the attention of more citizens of Canada than the business of educating Canadian youth.

The fifteen national organizations united in the Canadian Education Week project represent a combined membership of well over 2,000,000. (Two Million) There need be no fear in Canada of what is Everybody's Business becoming Nobody's Business.

UNDERSTANDING EDUCATIONAL PROBLEMS

There is no better time to begin to understand the problems in education than in Canadian Education Week. Visit your school. Talk to teachers and trustees. Examine your own thinking on what the schools should be doing. Be sure you understand what they are trying to do. Size up the helps and hinderances to the successful carrying out of your local education program. Determine how you can play an effective part as a parent, taxpayer, a teacher, or a trustee.

OBJECTIVE OF EDUCATION WEEK

1. To stimulate public interest in the work of the school.
2. To gain active support of the public in school undertakings.
3. To set up an area of mutual co-operation between parents and teachers.
4. To improve public relations between teachers, parents and school boards.

Calendar of Events During Education Week, Mar. 2 to 8

Mon., Mar. 3 — Open House
Jr.-Sr. High School
3:00 p.m. to 4:00 p.m.
Open House Night School
Between 7:30 and 9:30

Wed., Mar. 5 — Open House
Primary and Jermyn Ave. Schools
beginning at 2:00 p.m. Tea and
bake sale at Jermyn Ave.
Open House Carmi Ave. School
beginning at 2 p.m. Tea served.
Open House Queen's Park School begin-
ning at 2 p.m. Tea and home cooking
sale.
Open House Naramata School, beginning
at 2 p.m.

Thurs., Mar. 6 — Open House West Bench School
from 1:30 to 2:30 p.m.
Tea served by girls of grades 3 and 4.
Open House Kaleden School
2:00 to 3:00 p.m.

Friday, March 7 — Education Week Concert
High School Auditorium 7:30 to 9:30

DELEGATES from Prince George, Salmon Arm, Armstrong, Vernon, Kelowna and Vancouver were in Pentiction yesterday to attend the annual meeting of the Kamloops-Okanagan WMS Presbyterial held at St. Andrew's Presbyterian Church. In the group pictured above are the newly elected officers and several representatives from other areas. Reading, left to right are: Mrs. Kenneth Rooney, recording secretary; Miss May Nutt, Vancouver.

MARY HAWORTH'S MAIL

Woman Disturbed by Husband's Conduct

Dear Mary Haworth: Bob and I are both 25 and have been married four years. We have two lovely children. Bob is very affectionate and understanding. He constantly tells me of his love for me and the children. I love him dearly and wouldn't give him up for the world; but I am very depressed.

In our four years' marriage I can count at least 10 women whose telephone number Bob has taken. I find these numbers in his possession and ask him about them—and most times he will tell the truth. He says he hasn't called the numbers and doesn't know why he takes them.

The other day I came across another number and when I caught him in a lie about it, he broke down and told the truth. As usual, I broke down crying and told him I couldn't stand it any more and he would have to leave. He felt I meant it this time, and assured me the girl didn't mean anything, and that he'd never called the number.

CAN'T EXPLAIN HIS DISLOYALTY

He agreed to leave, admitting he was wrong to take the number, and said he didn't want to hurt me any more. But later he telephoned to say he would come back if I wanted him back; and I told him I did, because I love him too much to part with him, and I still believe that he loves me.

He can't provide any explanation for his actions; and says that it is no fault of mine. He claims I have been a good wife and mother, and always look pretty to him. Finding these telephone numbers is very depressing, however; and I just don't know what to do any longer. Perhaps I have failed somehow. Can you please help me? G.S.

FANCIES HIMSELF ANOTHER DON JUAN

Dear G.S.: Simply stated, Bob is a fool. Or a dope, to employ the slang of yesteryear. There are many kinds of a fool, and different definitions of a fool. Webster's supplies these definitions that apply to Bob's behavior—"one who trifles, who tampers, who wastes time; a deceiver, a dupe." Bob is all of this in respect to the ladies who give him a second glance.

When he takes a woman's telephone number, he is living a day-dream for the time being. He is Don Juan giving the girl a break—paying her the tribute of feeling admired, appreciated and desired by him; trying to make her happy and make a hit, so that she will remember him. All for what?

All because Bob is a mainly self-centred, self-serving operator in his social and personal relations—always with an eye to getting something out of the situation, or the encounter, for himself. Thus he can't have a friendly exchange with a beguiling woman (magnetic to him; or seemingly available), without earmarking her as a future potential conquest. That's why he takes the telephone numbers.

WEAK CHARACTER AFFECTS BOTH

But being also shallow, variable, inconstant, a veritable ventriloquist in his fantasy pursuit of gratification, he really hasn't much use for the given number. The investment of interest is in himself, not in the girl or her-

self, so he doesn't remember her too well, inasmuch as the passing show is always bringing new models of the same type into view. And his taste in "telephone numbers" does run to type, you may be sure—as he'll have to admit, if he thinks back.

As to whether you've failed somehow—it might be said that you can't make a silk purse of a sow's ear. True. In the final estimate, only Bob can re-visit his character for the better; and then only with the help of God, most earnestly asked for. However, you too are in need of more strength of character, and more vision of what marriage should be.

You miss the boat of happiness, in weakly loving Bob more than you love honor and truth and rectitude for their own sake. For a good foundation of understanding, of how to be a wife whose worth is above rubies, read Wingfield Hope's masterpiece "Life Together" (Sheed & Ward).

M.H.

Mary Haworth counsels only through her column, not by mail or personal interview. Write her in care of Pentiction Herald, Pentiction, B.C.

THE RIGHT HAT

BY ALICE ALDEN

It's here again, that hat with the padre brim that hasn't been around for years. Its lines, like those of the roller, are considered perfect to top the lean lines of the chemise silhouette. Christian Dior features the padre, this one of natural leghorn straw. The simple crown is firmly bowed and banded with black gros-grain ribbon for a youthful look.

PEN-MAR THEATRE

TONITE AND SATURDAY

Two Shows at 7:00 and 9:00 p.m.

These were the most popular pictures of 1957: "The Ten Commandments", "80 Days Around the World", "Oklahoma" and "Tammy and the Bachelor."

St. Andrew's Hosts WMS Presbyterial

Delegates from Vancouver, Prince George, Salmon Arm, Vernon and Kelowna, who were in Pentiction yesterday for the annual meeting of the Kamloops-Okanagan Presbyterial of the Women's Missionary Society of the Presbyterian Church, elected Mrs. Samuel McGladdery president for the ensuing term.

Other new term officers elected and installed by Mrs. W. J. Murdoch of Vancouver were: Mrs. John McCulloch, Vernon, vice-president and treasurer; Mrs. Kenneth Rooney, Vernon, recording secretary; Mrs. F. G. Abbott, Pentiction, corresponding secretary; Mrs. R. W. Hunter, young women's groups secretary, and Mrs. James Ewing, "Glad Tidings" secretary; Mrs. K. B. McKeechie, library and literature secretary.

Prior to the opening of the morning business session, a devotional service was conducted by Rev. Samuel McGladdery with solo selections by Mrs. H. J. Pelham. Mrs. McGladdery presided at the meeting in the absence of Mrs. Alex MacSwen, who was unable to be present owing to illness.

In the many comprehensive reports submitted on the past year's activities, it was noted that the Kamloops-Okanagan Presbyterial of the WMS had met its allocation of \$900 for the National Missionary Fund of the Presbyterian Church. Groups contributing to this generous amount were the Women's Auxiliaries, the CGIT, Explorers and the COC.

Highlighting the meeting were the inspiring addresses presented by Mrs. Murdoch and by Miss May Nutt, regional secretary. The latter visitor also led the delegates in a discussion period.

Following adjournment of the meeting films were shown on the Presbyterian Church camp at Silver Beach on the Shuswap Lake, and of the Christmas pageant held by the church at Prince George.

Luncheon was served to the 25 present by members of the Ladies' Aid of St. Andrew's under the convenship of Mrs. Archie Fead, while members of the Women's Missionary Society were afternoon tea hostesses with Mrs. Abbott and Miss Helen Reith in charge of arrangements.

Many Attend Guide And Brownie Banquet

KEREMEOS — More than a hundred guests attended the Girl Guides and Brownies annual "Mother and Daughter" banquet held in commemoration of "Thinking Week."

Mrs. E. Haughian, president of the local association, was chairman, and the dinner, convened by Mrs. J. L. Innis and her committee, was followed by an entertaining program. Grace was said by Myrna Barker and the toast to the Queen was given by Mrs. Haughian, who gave the address of welcome.

The toast to Lady Baden-Powell was proposed by Frances Schmaus with Girl Guide captain, Mrs. Peter Valland, responding. The toast to the mothers was expressed in a short poem by Thelma-Jean Parsons and Mrs. A. Sladen replied.

Guest speaker for the evening was Mrs. Alex. Walton, district commissioner, of Pentiction, who with her daughter, Sandra, was a guest at the dinner. The commissioner brought to those present the happy message that district commissioner, Mrs. Bruce Blagborne of Summerland, had announced the proposed purchase of a much-needed campsite, a beautiful spot in the North Ok-

anagan. Each Guide is asked to contribute fifty cents and each Brownie twenty-five cents earned by her own efforts towards the campsite fund, giving each a stake in this more than worthwhile enterprise.

KeremEOS Brownie Pack welcomed the following Tweenies to the Pack: Ellen Burdett, Donna Townsend, Lorraine Dennis, Dolores Pflanz, Marlene Burwell, Lynne Minshull, Heather Wiens, Linda Klassen, Helen-Claire Aronson, Rhonda Miller, Charlene Broderick, Heather Mackenzie and Colleen Dietten.

Joyce Burwell, Dawn Cromarty and Marilyn Harris, who were successful in recent tests, received the much-coveted "Golden Hand," presented by Mrs. Walton, who after the enrolment of Guides and the "Flying Up" of Joyce Burwell presented the following awards: Tenderfoot Badges to Guide captain, Mrs. June Yellana, Jacqueline Innis, Margaret Fewtrell, Joan Manery and Loretta Minshull; the "Baden-Powell Star" to Helen Bakker, Myrna Barker, Caroline Sladen, Nancy Willis, Rena Sappock, Rilla Sappock, Frances Schmaus and Emergency Badges to Frances Schmaus.

BACON AND CHIVES SAUCE

LET'S EAT

Many Variations in Low Calorie Sauce

"Voila, Madam!" proudly announced the Chef. "Our new surprise fluff sauce is perfected. Served hot or cold, it can be used with meat or fish, on vegetables, or with salads."

"This extraordinary sauce can be made in advance and even refrigerated for several days. It has the texture of whipped cream, but contains no cream."

The following recipe is for the Chef's new sauce.

FLUFF SAUCE

(Makes 4 cups)

In a bowl mix 1/2 c. instant non-fat dry milk crystals with 1/2 c. ice water. Whip 3-4 min., or until soft peaks form.

Add 2 tsp. lemon juice. Continue beating 3 to 4 min. more or until stiff peaks form. Fold and blend 1 1/2 c. well-seasoned mayonnaise. Chief! I applauded.

"But there's one important point about this sauce that you omitted."

"Since it contains no cream, it saves about half the calories of a whipped cream and mayonnaise sauce!"

BACON AND CHIVES FLUFF SAUCE

(Makes 4 cups)

Blend 1/2 c. cooked, crumbled bacon and 1/2 c. chopped chives into 1 c. Fluff Sauce.

Heat in the top of a double boiler over hot water to serving temperature.

NUMB FLUFF SAUCE FOR COOKED SPINACH OR OTHER GREENS

Blend 2 tsp. nutmeg into 1 c. Fluff Sauce. Heat in the top of a double boiler over hot water to serving temperature.

CLERY SEED FLUFF DRESSING FOR ORANGE, GRAPEFRUIT, AVOCADO, ESI AND CABBAGE SALADS

Blend 1 tsp. clery seed and 1 tsp. sugar into 1 c. Fluff Sauce.

CHEESE FLUFF SAUCE FOR COOKED CAULIFLOWER, ASPARAGUS OR BROCCOLI

Blend 1/2 c. grated Cheddar cheese and 1/2 tsp. paprika into 1 c. Fluff Sauce.

Heat in the top of a double boiler over hot water to serving temperature.

DINNER

Red Bean Soup

Corn Bread

Broiled Rounds of Ham

Baked Rice Pilaf

Broccoli with

Fluff Cheese Sauce

Jellied Pineapple Chunks

Coffee Tea

All measurements are level; recipes proportioned to serve 4 to 6.

BAKED RICE PILAF

Melt 1 tsp. butter or margarine in a heavy saucepan. Add 1 1/2 c. rice.

Slow-saute 30 sec. over a low heat, stirring constantly. Add 2 1/2 c. boiling water and 2 chicken or beef bouillon cubes dissolved in 1/4 c. water.

Transfer to a 2-qt. casserole. Cover.

Slow-bake 40-45 min. or until the liquid is absorbed and the rice is flaky.

TRICK OF THE CHEF

Brush tenderized ham to broil sparingly on both sides with honey stirred with table mustard.

MAID'S ERROR

BRENTWOOD, England (CP) Mrs. Stella Matthews thought the wastepaper basket was the ideal place to hide her jewelry, until she found the maid had emptied 2500 worth into a garbage bin. It was recovered from a rubbish dump.

"THE NEW YOU"

Is Fashion's Forecast for Canadian Women in 1958

By THE CANADIAN PRESS

"The new you" is fashion's forecast for Canadian women in 1958.

The chemise silhouette reigns supreme, it was shown in a Canadian Press survey of department stores and spring shows across the country. A fashion upheaval is evident from coast to coast.

Styles from evening wear to sportswear run the gamut of 20 silhouettes ranging from the overblouse look, which displays a gentle shaping that follows the relaxed line of the chemise, to the figure-free look with its long shoe-string line.

SKIRTS SHORTER

Skirts are shorter—16 1/2 to 17 1/2 inches from the floor—and vary from the harem skirt caught up at hem with bow and the torso skirt with a bow or flounce above the knee to the bell-shaped skirt. Pleats are disappearing for the first time in years.

Waist lines fall into three classes: the directoire, higher than normal; the normal waistline and the banded bow waistline.

Fabrics range from Harris tweeds to hop-sacking. New materials include "hammer and nails," a loose spongy weave. Colors are vivid with blues, tangerines, page beiges, mint greens and reds taking the spotlight.

Suits emphasize bloused backs over tapered skirts. Jackets are shorter and necklines smartly set away. Coats accent the tapered line with low-placed belts.

Hats are feminine and appealing and are made to balance the costume look. Youthful rollers, turbans, Bretons and cloches all accent the mood of the 1920s. Biggest accessory news is the rose-long-stemmed or cabbage.

SPEEDY DELIVERY

Newfoundlanders are going for the chemise in a "big way," store officials report. They say:

"We are right in the swing of fashion for the first time as new styles, which usually reach Newfoundland centres months after they have been adopted on the mainland, are already on the market."

Women can't make up their minds about the sack in the other Atlantic provinces. Merchants report that late afternoon dresses in the chemise silhouette however are beginning to sell, with long ropes of pearls typical of the 1920s. Stores expect a rush later in the season.

The costume look in clothes for both morning and evening wear appeals to Quebec women. A suit may look like a suit but chances are that underneath is a blouse or jacket that comes off, revealing a dress.

It's the middy look for the younger set in Ontario as the barrel-back overblouse with a slim skirt takes over. Prints are in brilliant splashes of color—some are leashed in with a belt while others follow the shoe-string line.

MODIFIED VERSION

In Manitoba, merchants report women are showing some buyer resistance to the chemise. Dresses and suits are shown mainly in modified versions. One Winnipeg woman told a store official she would have to pay the bill herself if she bought a sack dress—these were her husband's last words on the subject.

The modified chemise, which has a gentle shaping, is "really selling," in Alberta, says a department store official in Edmonton.

In Saskatchewan and British Columbia the chemise with its figure-free look reigns supreme. Bowed, tucked or banded, the blouse two-piece outfit is also popular.

PEACHLAND NEWS

George Smith has returned to Williams Lake after spending the weekend at home with his family. Mr. Smith has been working with the B.C. Power Commission for two months and will be in the northern community for another month. He was accompanied by his wife as far as Kamloops. Mrs. Smith has gone on to Calgary for a short visit with her sister, Mrs. R. Noonan, and her brother, Ray Spackman.

"Open House" at the school will be held on Tuesday, March 4, not Thursday, March 6, as was previously reported.

Mrs. A. Garven, of Calgary is visiting her son-in-law and daughter, Mr. and Mrs. Jack Garraway.

Mrs. L. L. Mitchell and Charles Bullock have been discharged from the Kelowna Hospital, while Mrs. W. J. Todd was admitted to the hospital, on Sunday, February 23.

Women

Friday, February 28, 1958 THE PENTICTON HERALD 7

Wife Preservers

Give your good silver extra cushioning by cutting pieces of cotton carpeting to line your silver drawer. An extra advantage is its easy washability.

Three-year-old Valerie, Bradley is home again after spending a few days in the Kelowna Hospital.

Raymond Nicholson of Pipestone, Manitoba, has been a visitor for three weeks at the home of his cousins, Mr. and Mrs. W. J. Todd.

MOOSE JAW, Sask. (CP)—Police Chief Mackey says women are in the majority among shoplifters here. Adults are also greater offenders than juveniles, he finds.

NARAMATA NEWS

Local residents will have the opportunity to meet David Pugh, Conservative candidate for the forthcoming federal election, when he visits Naramata tomorrow. The public is invited to attend a coffee party between the hours of 10 a.m. and 12 noon at the home of Mr. and Mrs. J. C. Donald, North Bench, and an afternoon tea at the home of Mrs. G. P. Tinker from 3 p.m. to 5 p.m.

Miss Elaine McPhee will leave Tuesday for New Westminster to begin her training in psychiatric nursing at Essondale.

Mrs. G. P. Tinker has returned home after visiting in Vancouver with her son, Percy Tinker.

The Naramata Players will produce Nolere's comedy "George Dandin" tonight and tomorrow evening in the community hall. The well-known play was successfully presented at two performances last week at the Poplar Grove hall under the direction of Gottfried Morehe. Rev. Samuel McGladdery of Penticton plays the lead male role in the entertaining comedy. Others in the cast are Kitty Wilson, Val Morehe, Edith MacNeill, Peter van der Horst, George Patterson, Ernest Grossman and Sandra Wilson.

Mr. and Mrs. Stuart McPhee are in Los Angeles with the former's brother and sister-in-law, Mr. and Mrs. Jack Way, B.C. United Church boys' work secretary, who were occupants of a plane which crashed in Utah last week. The California couple were en route to Naramata for a visit with Mr. McPhee's brother and other relatives. Mr. McPhee's injuries were not too serious, but Mrs. McPhee was badly hurt and is a body cast. Her husband is suffering chiefly from minor abrasions and frost bitten feet.

H. A. Mitchell has returned home after spending the past five weeks as a patient in Shaughnessy Hospital, Vancouver.

Miss Janey Holman, associate Christa education secretary in B.C., and Jack Way, B.C. United Church boys' work secretary, are currently lecturing at the Christa Leadership Training School.

THE BUILDING CENTRE PLAN SERVICE
DESIGN DEPT.

Side by side duplex designed for NIA approval. Ideal for a corner lot. This plan shows basement with a through hall from the entry separating living and sleeping areas. Working drawings available from the Building Centre (B.C.) Ltd., 1210 W. Broadway, Vancouver 9, B.C. For other select designs, send 25 cents to cover cost of mailing our new plan book, Select Home Designs, Second 1957 edition now available.

FIRST AID TO AILING HOUSE

BY ROGER C. WHITMAN

PAINTING RISER PIPES

QUESTION: The old house we just purchased has heat riser pipes in several rooms. Is there any way to paint them?

ANSWER: Remove all loose particles of rust and dust with a stiff wire brush. Then wash with turpentine to remove all traces of oil and grease. Any good quality oil paint or enamel can be used; flat wall paint seems more resistant to blistering and peeling; or special radiator paint can be used. First coat of paint should be thinned with one-fourth as much turpentine and brushed on in thin coat. Apply two or three coats. Painting should be done preferably outside heating season and should be thoroughly dried before heat is turned on in pipes.

ASPHALT TILE

QUESTION: We are planning to install asphalt tile on recreation room floor that has been taken care of for years. What paint have to be removed before laying the tile?

ANSWER: The tile adhesive has a solvent action on the majority of floor paints, therefore, it is advisable to remove the paint before laying the tile. The quickest way of removing the paint is to use a floor-scraping machine. Another method is to use paint remover; or to hold a heat lamp about twelve inches from the surface and, when the paint becomes softened, take it up with a wide blade putty knife.

CINDER FOUNDATION

QUESTION: When is a cinder foundation necessary under a sidewalk?

ANSWER: A cinder or gravel foundation is laid under a sidewalk when the drainage is not good and there is danger that water may collect under the sidewalk.

TERMITE-PROOF HOUSE?

QUESTION: Would a home built of cement blocks, bricks or stucco be considered "termite proof"? What sort of spray is recommended to exterminate termites and prevent their entrance into the house?

ANSWER: All the materials you mention are in themselves "termite proof," but can act as passageways for termites to reach wood trim, molding, etc. Coal-tar creosote and chlordane are used commonly in termite control. Suggest you send for the Farmers' Bulletin No. 1993, Decay and Termite Damage in Houses, published by Superintendent of Documents, Washington, 25, D.C. and priced at 15 cents.

BLEACHING WOODWORK

QUESTION: We recently moved into a house with dark oak woodwork that hasn't been taken care of for years. What can we do to bleach it?

ANSWER: Remove present varnish with varnish remover, following label directions carefully. Then apply commercial wood bleach according to instructions.

NAIL POLISH ON RUG

QUESTION: Fingernail polish was spilled on our rather hard finish woven woolen rug. It is completely set. What do you recommend to remove it.

ANSWER: Use nail polish remover to soften the polish, then remove with clean cloth or cotton. Wash with mild soap suds, rinsing thoroughly afterward.

Zoot-Suiter Gangs Are Disappearing

By THE CANADIAN PRESS

Juvenile gangs — roving bands such as the "zoot-suiters" who paraded in extreme garments and turned some main streets into battlegrounds during the Second World War — have almost disappeared in Canada.

A cross-Canada survey by Canadian Press reporters indicates more juveniles got into trouble in 1957 in major cities but that they went wrong on their own or in groups of two or three, stealing cars for "joyrides," getting into fights at dances or crashing parties.

Few cases of violence were blamed on juveniles. Where outbreaks occurred so did swift police action. A growing concentration on preventive measures was evident from coast to coast.

MEASURES VARY

Vancouver added more men to its juvenile detail in 1957. Calgary and Edmonton worked through youth committees. A small Saskatchewan city took its problem right to the people.

Manitoba tackled juvenile delinquency on a provincial level. Toronto, setting up Canada's first metropolitan force, began screening its men for personnel suitable to staff a juvenile squad. Ottawa and Hamilton reported the situation under control and planned no special police action. Inspector Oviola Pelletier, of the Montreal juvenile squad, said his men are relying more and more on informing parents of youngsters' activities and counting on them for punitive and corrective action—a theory reported getting results in Montreal and elsewhere.

In the Maritimes, "unruliness" was reported up, but not alarmingly. Halifax reported a 25-per cent increase in crimes by juveniles, but said a number of offences committed on school property had dropped.

CONTRIBUTING FACTORS

As in adult crime, overcrowded living conditions and unemployment were given as contributing factors to a general increase. Broken homes and lack of parental control and interest were high on the list of reasons why juveniles go wrong.

However, most areas reported the rise in population, together with greater efficiency in detection and reporting of crime, tended to distort the picture and that on a percentage basis, juvenile crime and criminals were well in hand.

Boys and girls under 18 are tried in juvenile court in Quebec, Manitoba and British Columbia; under 16 in Newfoundland, Nova Scotia, Prince Edward Island, Ontario and Saskatchewan. In Alberta, boys under 16 and girls under 18 go to juvenile court. Nowhere were there instances of marauding, mugging and murder as reported by youngsters in New York City. There were no racial disturbances.

Two-Hour Fire Hits Warehouse

VANCOUVER — (CP) — A three-alarm fire crackled for more than two hours in a waterfront warehouse here Thursday night.

Two floors at the top of the brick building were gutted.

The building was cramped in the midst of a warehouse district, and was next to a wholesale florist.

Four firms used space in the building. They were Hacking Agencies, Hacking Imports, Hacking Exports Company, Decalco Limited, C and S Furn Sewing Machines and International Factory Sales Service manufacturers.

A lane leading to Woodward's multi-storey parking lot separated the burning building on one side from a similar building.

Tons of water was dumped through open windows as more than 50 men struggled to keep flames from spreading.

There was no early estimate of damage. No one was believed injured.

AGAIN BUILDING

HULL, England (CP) — The keel is being laid of the first ship to be built at this Yorkshire port in 30 years.

MICKEY MANTLE
... looks to '58

Mickey Predicts Jackpot Season

ST. PETERSBURG, Fla. (AP) — Mickey Mantle Thursday signed a New York Yankee contract for \$72,000, third highest among active baseball players, and confidently announced: "This will be my jackpot year."

Mantle and Yankee pitcher Bob Turley came to terms in conferences with Lee MacPhail, New York personnel director, Turley

Tibbs Meets Ortiz Tonight

NEW YORK (AP) — Undefeated Carlos Ortiz of New York and 43-time buster Tommy Tibbs of Boston clash tonight in a televised 10-round fight. Ortiz is an 8-to-5 favorite.

Despite his many losses, Tibbs, 23-year-old veteran of eight professional years of boxing, has a good chance to pin the first defeat on the fast-punching, 21-year-old Ortiz.

The squat, little Bostonian has a record of 43 wins, 43 losses and three draws. Tibbs has come along fast in the last two years. He has won five straight. His last victory was a decision over the once-great Willie Pep in Boston Jan. 14. Ortiz, a pro only two years, has a record of 24 victories.

Police Escort Guards Boxer From Rebels

HAVANA (AP) — Guarded until the last moment, lightweight champion Joe Brown and his wife happily left by plane Thursday for their New Orleans home.

The 32-year-old American, who knocked out Cuba's Orlando Echeverria in the first round of a non-title fight Wednesday night, had been surrounded by heavy police forces since Cuban rebels kidnapped Juan Manuel Fangio, Argentina's world champion auto racing driver.

"It was awkward and disturbing," said Brown. "Naturally, I didn't expect anything like this when I came here and I was a little upset with having police around me all of the time."

DUNLOPS OPEN PLAY SATURDAY

World Hockey Championships Get Underway in Oslo Today

By ED HIMON
Canadian Press Staff Writer

OSLO, Norway (CP) — Canada's well-balanced Whittby hockey team and Russia, the favorites, watched from the sidelines today as the world hockey championships opened in Oslo's big Jordal Amfi outdoor arena with virtually all of the 10,000 seats sold out days ago.

The razor-sharp Canadians and the speedy Russian veterans drew eyes on the opening day of the 10-day tournament which started with a match between darkhorse Czechoslovakia and Finland at 6 a.m. MST.

King Olav V of Norway was scheduled to declare the championships officially opened afterwards and J. F. (Bunny) Abernethy of Britain, president of the International Ice Hockey League, was to deliver the inaugural address.

WHITBY OPENS SATURDAY

Winding up the first day's competition were games between Norway and Sweden at 9:30 a.m. MST and Poland and the United States at 1 p.m.

The Canadians and the Russians make their bow Saturday. The lightly-regarded Poles will be Canada's first opponents while the Russians take on Norway.

The consensus was that both

Phil Goyette Leads Way as Canadiens Beat Toronto 4-1

By MARTY GOODMAN
Canadian Press Staff Writer

The cogs that kept the Montreal hockey machine rolling smoothly all season have driven it to the National Hockey League championship.

The battered Canadiens suffered heavy injuries this season, especially to stars, but when they defeated Toronto Maple Leafs 4-1 Thursday night they clinched the title in record-tying time.

Two years ago Montreal clinched first place in their 60th game Feb. 25. The Habitués were two days off by the calendar but Thursday night's game was also their 60th.

The victory lifted Montreal 23 points ahead of New York Rangers who have 11 games left. It

was Montreal's 10th title since the league was organized in 1917.

Toronto's slim hopes of making the playoffs were further diminished by the loss. Leafs trail fourth-place Boston Bruins by six points and lead Chicago Black Hawks by two.

Montreal's reserve strength has kept the team flying despite injuries to Maurice (Rocket) Richard, Jean Beliveau, Bernie (Boom) Geoffrion, Doug Harvey, Jacques Plante and others.

It was these lesser-known reserves who hit the score-sheet to clinch the title.

Montreal's third line, a highly effective unit that came through admirably when injuries hampered the other two lines, combined for the first two goals. Claude Provost scored his 16th with Phil Goyette and Andre Pronovost helping and Goyette scored his sixth with the other two aiding.

Don Marshall, the handyman who has played at every forward position, scored his 21st from a spot on left wing with Maurice Richard and Jean Beliveau.

REUNION SUCCESSFUL

Marcel Bonin, who filled in so well for Richard's 42-game absence on a line with Henri Richard and Dickie Moore, was reunited with them and picked up his 14th goal.

Brian Cullen got Toronto's only goal, his 18th, in the third period. Leafs tried hard, firing 32 shots at Montreal's Jacques Plante. Toronto's Ed Chadwick stopped 29 shots.

The hard-shooting Provost is having the best of his three seasons in the league. The 24-year-old Montreal native scored 13 and 16 goals in his previous campaigns but only 16 and 14 assists. He has 27 assists this season.

Pronovost, 21, has 12 goals, two better than his total last season, and Goyette, 24, who only played 14 games for Montreal last year, has 29 assists.

Visiting Rinks Lead Victoria Bonspiel Play

VICTORIA (CP) — Visiting rinks appeared likely to take the bulk of prizes today as the centennial bonspiel at the Victoria Curling Club headed into its final day.

Bill Karjala's Nanaimo rink had won seven in a row going into today's first draw and was into the eights in both primary events.

Knocked out of the unbeaten class Thursday were Gar Taylor of Victoria and Frank Wolfe of Edmonton. Taylor was up-ended by clubmate Larry Marshall while Wolfe lost twice and dropped out of the competition.

Wolfe was first beaten by W. C. Brown of Victoria in the 16s of one event, then lost to Al Mather of Pentleton in the eights of the other event.

DODGERS FROLIC

As frisky as spring lambs are this pair of Los Angeles Dodgers pitchers shown limbering up at their Vero Beach camp in Florida. Carl Erskine leaps over Roger Craig during the game of leap frog, a perennial but painful method of toning up muscles after the long winter layoff.

Rosslund Ski Meet Starts Saturday

ROSSLAND, B.C. (CP) — Nine teams of skiers will push off down the slopes of Red Mountain Saturday morning, through six inches of new snow, in the first event of the Canadian Junior Ski Championships.

Representatives from Ontario, Quebec, Alberta, British Columbia and Washington state are competing in the championships, being held in the west for the first time.

British Columbia, Alberta and Wenatchee, Wash., teams were last to arrive. Skiers from the east have been out since last weekend.

Representing B.C. are Larry Nells, Roddy Herbron, Chris Selbeck and Tom Mobraaten, all of Vancouver, and Gary Battistella of nearby Kimberley.

The Western teams have been given the edge by officials, being more accustomed to British Columbia's steeper slopes.

NHL LEADERS

Shutouts: Plante, Montreal, 9
Penalties: Fontinato, New York, 136 minutes.

Roy Sievers Signs Contract For \$36,000

ORLANDO, Fla. (AP) — Roy Sievers, the 1957 American League home-run leader, Thursday accepted the highest salary offer ever made by Washington Senators—a reported \$36,000. The right-handed outfielder had sent back without his signature four previous contracts for an estimated \$30,000.

Bowie Racetrack Reopens Saturday

BOWIE, Md. (AP) — Bowie race track, handicapped by the elements for the past 10 days, has called off today's racing program to give its grounds crew time to heal some of the ruts in its weather-beaten racing strip.

But Saturday's program definitely will be on, including the \$20,000-added Southern Maryland Handicap.

The track was closed Thursday because of the deep ruts caused when the subsurface of the track began to thaw several days ago.

Regals Beat Calgary; Third Spot in Doubt

By THE CANADIAN PRESS

Third spot in the Prairie division of the Western Hockey League is still in the balance with a month to play in regular games.

Four points separate Saskatoon-St. Paul Regals, last-place team, and Calgary Stampede. Regals broke loose Thursday night to defeat Calgary 8-3 in the only scheduled WHL game.

It was the second victory in a row for Regals over Calgary.

Doug Bentley, at 41 still one of the most dangerous men in the league, scored two goals for Saskatoon-St. Paul as did Bob Kabel, Vic Lynn, Les Colwill, Gerry Couture and Lyle Willey were other Regal marksmen.

Calgary's three came from Sid Finney, Stamps top marksman, George Ford and Merv Kuryluk. The Regals went ahead 2-0 after the first period and held a 3-1 edge at the end of the second. They continually outplayed Calgary in the third and outscored them 5-2.

FIVE-GOAL LUSH

Regals' five-goal spurt began at 8:42 and ended at 15:18 with Couture, Bentley, Kabel, Willey and Lynn punching in the goals. Calgary's last counter came at 18:56 Kuryluk scoring from Milan Marcketa and George Ford.

Kabel gave Regals a 1-0 lead at 14:05 of the first period when Stamps were a man short. Bentley increased it to 2-0 five minutes later.

Colwill beat Al Rollins from close in at 4:09 of the second period to rush Regals ahead 3-0. It looked like a shutout for Lu-

cien Dechene when Finney scored at 12:49 and spoiled his chances.

Then Regals' five goals split it wide open.

Sports

GARTH WILTON, Sports Editor

Friday, February 28, 1958 THE PENTICTON HERALD 10

Czechoslovakia Takes 5-1 Win

OSLO, Norway (CP) — Czechoslovakia crushed Finland 5-1 today in a snow-covered start to the world ice hockey championships at the outdoor Jordal Amfi Stadium.

Heavy snow fell throughout the match. The game developed into one of hide and seek as players lost the puck in the thick coating of snow on the rink.

The game was held up mid-

way through the final period as workmen cleared snow.

"I've never seen a game played in snow like this before," said Canadian Manager Wren Blair, whose Whittby entry does not make its debut until Saturday.

The snow made it difficult for the players. It slowed down their skating and forced them to hit the puck with great power to push it through the snow.

The Czechs scored two goals in both the first and second periods and the teams split the third period's two markers.

Only about 1,000 fans—most of them school boys and school girls—turned up for the curtain raiser.

DYNAMITERS WIN

CRANBROOK (CP) — Kimberley Dynamiters beat Cranbrook Selkies 5-3 Wednesday night to win the 1958 Kootenay intermediate hockey championship three games to none with one game tied.

Baldwin Seeks New Record In Canadian Championships

EDMONTON (CP)—Matt Baldwin, a 31-year-old Edmonton oilman who shoots for a bull's eye on ice with the accuracy of an expert marksman, is seeking a place with Ken Watson of Winnipeg among curling's most outstanding skips.

Baldwin is the defending champion. He won for the first time in 1954. Last year, with an entirely different outfit, he won the crown again. Two of his three team-mates on that rink are with him again this year.

Baldwin won the Alberta championship for the fourth time in five years when he defeated Art Simpson of Bassano in the provincial finals.

SCHEDULE FOR WORLD HOCKEY TOURNAMENT PLAY IN OSLO

OSLO, Norway (CP)—Following is the draw for the world hockey championships beginning here today. All times are Mountain Standard.

Feb. 28, 6 a.m., Finland vs Czechoslovakia; 9:30 a.m., Norway vs Sweden; 1 p.m., Poland vs United States.

March 1, 6 a.m., Canada vs Poland; 9:30 a.m., Finland vs Sweden; 1 p.m., Norway vs Russia.

March 2, 8:30 a.m., Finland vs Russia; 12 noon, Canada vs Norway.

March 3, 6 a.m., Poland vs Czechoslovakia; 9:30 a.m., Canada vs Finland; 1 p.m., Norway vs United States.

March 4, 9:30 a.m., Sweden vs United States; 1 p.m., Russia vs Czechoslovakia.

March 5, 11 a.m., Finland vs Poland.

March 6, 2 a.m., Russia vs Poland; 6 a.m., Norway vs Finland; 9:30 a.m., Canada vs Sweden; 1 p.m., United States vs Czechoslovakia.

March 7, 6 a.m., Poland vs Sweden; 9:30 a.m., Canada vs Czechoslovakia; 1 p.m., United States vs Russia.

March 8, 6 a.m., Canada vs United States; 9:30 a.m., Russia vs Sweden; 1 p.m., Norway vs Czechoslovakia.

March 9, 1 a.m., Finland vs United States; 4:30 a.m., Norway vs Poland; 7:30 a.m., Sweden vs Czechoslovakia; 1 a.m., Canada vs Russia.

Demore's Second Goal Sinks Trail

TRAIL (CP)—Diminutive Ray Demore of Rossland Warriors scored his second goal of the night after 11 minutes of sudden death overtime to down Trail Smoke Eaters 6-5 here Thursday.

The game had no effect on the Western International Hockey League standings as they had been settled Tuesday night when Spokane beat Rossland for first place.

TORGESON COMES TO TERMS

TAMPA, Fla. (AP)—The last Chicago White Sox holdout, first baseman Earl Torgeson, came to terms Thursday.

The 34-year-old veteran was provided a "slight raise," according to Sox vice-president Chuck Comiskey, who signed Torgeson in a 15-minute huddle beneath the stands in Al Lopez field.

Western International Hockey League standings as they had been settled Tuesday night when Spokane beat Rossland for first place.

Gil Desrosiers and Norm Lendaron matched Demore's brace for Rossland.

Warren Hicks led the Trail attack with two while Jerry Penner, Garth Hayes and Ad Tambellini scored singles. Tambellini's goal was hit 34th of the season, tops in the league.

Trail led 2-1 at the end of the first, dropped behind 3-2 after the second and outscored Rossland 3-2 in the third.

Five minor penalties were called in the dull contest with Trail receiving three.

On the Baldwin rink for the Dominion event this year are Dr. Jack Geddes at third, Gordon Haynes at second and Bill Price at lead. Art Kleinmeyer, who threw second rocks for Baldwin last year, has departed, and Haynes moved to second to make way for Geddes.

"We're a knockout rink," Baldwin said. "We tried to play the draw-game style in a few games this year and couldn't win."

Baldwin's accuracy is knockout—And when necessary at drawing, too—often has pulled the rink from a hole and brought it victory.

The entire foursome works well under pressure and Baldwin, Haynes and Price have proven themselves previously.

In the provincial final, the last game was won by Baldwin when Simpson went wide with a draw shot in the eight-foot circle, a shot he had been able to make several times earlier in the game.

But it was as much Baldwin's brilliant last-rock takeout and roll, which forced Simpson to attempt the draw, that brought the victory as Simpson's last-rock-of-the-match miss.

The pressure was extreme on Baldwin, but he was deadly accurate.

When it was over, someone asked the Edmonton skip: "How lucky can you get?"

"Rather be lucky than good," Baldwin quipped, "but we'll try to be both at Victoria."

There were no surprises when the entry box closed but one or two candidates probably will skip the 1-mile race, a highlight of the Santa Anita season.

The favored Round Table, owned by Travis M. Kerr, to be ridden by Willie Shoemaker and winner of our stakes at the current meeting, drew the outside position which should assure him of a minimum of trouble at the start.

Bombers Sign Leo Lewis

WINNIPEG (CP)—Imported to play his fourth season with Winnipeg Blue Bombers of the Western division of the Canadian Football League.

Lewis, a five-foot 10-inch 195-pound speedster, was one of the main cogs in Bombers' drive to the Grey Cup final last year.

An excellent runner and pass receiver, Lewis is also used to throw the ball on option plays.

A graduate of Lincoln College, Mo., Lewis is married and has one son.

LEAF GOALIE HURT

After 15 minutes in a Maple Leaf uniform, goalie Jacques Marcotte finds himself enveloped in a hospital gown, which will be his new uniform for the next 10 days. Purchased from Rangers last weekend for \$5,000, the colorful 23-year-old goalie was struck in the eye with a puck during his first practice session with his Toronto teammates. Although his sight is not damaged, Marcotte has a bad cut over a swollen right eye which required nine stitches. Meanwhile, goalie Ed Chadwick has his old job back, at least temporarily.

Twelve Starters For Santa Anita

ARCADIA, Calif. (AP)—Eleven challengers were named Thursday to race against Round Table in the \$135,000-guaranteed Santa Anita Handicap Saturday.

Joe W. Brown's Pitt Boss, Elobe Farm's Eddie Schmidt, and Like Magic, Full Brother of Swaps from the Rex C. Ellsworth barn.

The weekend forecast calls for continued clear weather and a fast track. Such an entry as Nashville probably would scratch out unless the track came up muddy.

The winner will net \$97,900 regardless of how many go to the post. Second, third and fourth places are worth \$20,000, \$10,000 and \$5,000.

Round Table will carry high weight of 130 pounds, spotting Promised Land, the next high weight, eight pounds.

The four-year-old Round Table was the leading money winner in the United States last year and his all-time earnings are \$803,254, sixth in current standings. Victory in the Santa Anita would jump him to fourth place.

SPOKANE TAKES TIGHT 5-4 WIN

Flyers Down Maple Leafs In Prep for Playoffs

By THE CANADIAN PRESS

The winner in regular league play has already been decided in the Western International Hockey League but Thursday night's game at Spokane looked like playoff hockey.

Four thousand fans cheered in the coliseum as their Flyers edged Nelson 5-4, both teams checking hard.

Flyers took control in the first period with a 3-0 lead, but Leafs cut the margin to 4-2 in the second and outscored Flyers in the final period, Leafs managed to tie it up 4-4, but Spokane's Lorne Nadeau got the winner with seven minutes remaining.

Flyers' other goals went to Dave Gordichuk, two; Floyd Maxfield and Frank Kubasek.

Nelson scorers were Don Appleton, with two, and singles by Mickey Maglio and Shorty Malake.

In the second game in WHL action Ray Demore scored his second goal after 11 minutes of sudden-death overtime to lead second-place Rossland Warriors to a 6-5 victory over Trail, celebrating with two, and singles by Gil Desrosiers and Norm Lendaron matched Demore's brace for Rossland. Warren Hicks led the Trail attack with two while Jerry Penner, Garth Hayes and Ad Tambellini scored singles.

Tambellini's goal was his 34th of the season, making him the league's top scorer.

There are no games in the WHL tonight. In the Okanagan Senior League, Vernon plays at Kamloops in the fifth game of a best-of-seven semi-final series. Kamloops leads the series two games to one and one game was tied.

Kelowna defeated Penticton four games to one in the other half of the league semi-finals.

Detroit Lions Show Profit

DETROIT (AP)—Detroit Lions Thursday reported net earnings of \$151,052.55 for 1957 and declared a five per cent cash dividend to the National Football League club's 130 stockholders. It was the seventh year of finishing in the black for the Lions.

You'll find a new, and simply terrific '58 Plymouth not only costs you less, but gives you more!

Plymouth gives you the fresh new beauty of modern Silver-Dart styling... the convenience of push-button Torque-Flite automatic drive... and new velvety-quiet performance, too, with your choice of the big 313-cubic-inch Plymouth V-8 or newly improved, extra-thrifty Six.

And when it comes to ride, Plymouth's '58 Toralox-AIRE is unequalled, even by systems that cost at least \$150 extra!

Stop by and test-drive a '58 Plymouth this week. Check price, trade-in, and terms. Check Plymouth's careful craftsmanship.

PLYMOUTH QUALITY IS HIGHEST EVEN THOUGH PRICES ARE LOWEST

Every single item that goes into a new Plymouth is carefully checked for quality. Every step of the manufacturing process is quality controlled, too. The result is a level of excellence you expect only in "expensive" cars. Yet Plymouth prices are the lowest!

new blue Chevron Supreme

*Standard announces a new grade of gasoline...
specially compounded to deliver more
performance from today's super cars*

... more value from your gasoline dollar!

Feeling adventurous? Then take the big step ahead to a new experience in driving... new blue Chevron Supreme!

Here is a different gasoline... designed to put your car on a new level of power and performance.

New blue Chevron Supreme is made possible by new developments in refining techniques... a special compounding of selected gasoline stocks with advanced components of aircraft fuel.

The result is a super gasoline... road-tested for thousands of hours on powerful new '58's... on late model cars... even on older models with high compression engines.

The big step ahead is here. Take it today. New blue Chevron Supreme... another fine Standard Oil product... at the new blue pump.

Top performance from Chevron; too. Chevron Gasoline is for all but the highest-compression cars.

The West's most popular economy gasoline, it's the only "regular" with the same compound you get in new blue Chevron Supreme—carburetor-cleaning Detergent-Action, for greater gas mileage.

Stop for Chevron at the red pumps

ROYAL COMMISSION'S REPORT ISSUED

Copyright Law Changes Urged

By KEN KELLY
Canadian Press Staff Writer

OTTAWA (CP) — Sweeping changes in Canada's copyright laws to bring them in closer harmony with those of Britain and the United States are proposed in a royal commission report made public today.

The recommendations are the result of a 3½-year study by a commission headed by Chief Justice J. L. Tasley of Nova Scotia.

MAJOR PROPOSALS

Among the major proposals:

1. Creation of a "broadcasters right," making it possible to claim copyright on recordings by film or otherwise of sounds and images in order to present them later to the public. The commission expressed opposition to creating a publishers' right as a way to protect typographical arrangements from exact reproduction.
2. A generally shorter term of copyright—56 years from publication or until the author's death, whichever is the longer period. The present term is the author's lifetime plus 50 years; in the U.S. it is 56 years from publication.
3. A term of 40 years for recordings instead of the present 50, and a similar term for films, both based on time of publication.
4. Ratification by Canada of the Universal copyright convention of 1952 and continued participation in the Rome convention of 1928, but no action to bring into force the Brussels copyright convention of 1948.
5. Investigation by a government-appointed commission of the whole subject of the rights owned by performing rights societies in musical works.
6. Establishment of a new copyright appeal board with wider powers to regulate all conditions and fees under which musical works owned by performing rights societies may be used.
7. Establishment by performing rights societies of central registries of works in which they claim performing rights, with penalties for late listing or delays in changing listings.
8. Scrapping of the present copyright register maintained at

the copyright office in Ottawa and repeal of registration provisions in the present Copyright Act. Registration now is voluntary and is useful only in complicated legal situations that might arise in actions for infringement.

9. Extension of copyright protection to all residents of Canada on unpublished work. At present it is limited to a citizen or na-

tional of countries that have signed international agreements in which Canada participates.

10. Substantial changes in the legal remedies for copyright infringement, based in many cases on provisions of Britain's year-old Copyright Act. This would include requiring the plaintiff—rather than the defendant, as at present—to prove his case where copyright is at issue.

11. Royalties for recorded musical and other works should be based on playing time, at a rate of one-quarter cent a minute, with a minimum of two cents for each work. At present, the royalty is two cents a side of each record.

12. Copyright in unpublished original literary, dramatic or musical works should extend for 75 years after death of the author

or 100 years after the work was made, whichever is the longer. The present term is until publication plus 50 years.

13. Copyright in photographs should be reduced to 40 years from the time the photo was taken. At present it is 50 years from the making of the original negative.

14. On published engravings, the term should be 56 years from publication or the author's death, whichever is longer. On unpublished engravings, it should be 75 years after the author's death or 100 years after the engraving is made, whichever is longer.

15. Only the originating station of a network broadcast should

B.C. Telephone Earnings Down

VANCOUVER (CP)—The B.C. Telephone Company spent a record \$40,000,000 in expansion and improvement during 1957, but earnings were "substantially lower than in any recent year," president Gordon Farrell says in the company's annual report. Operating revenues rose by 11 per cent to \$41,300,000, but operating expenses rose by 12 per cent to \$34,500,000, the report said. Net income available for

HOW GERMANS SEE IT

One of the floats in the annual carnival in Mainz, Germany, was this tableau depicting a German interpretation of the situation between U.S. and Russia. Two figures representing Ivan (foreground) and Uncle Sam are trampling and smashing their swords, but each holds a bomb behind his back. Title of the float was "Disarmament".

WORLD BRIEFS

TRANSATLANTIC CABLE

LONDON (CP) — A second transatlantic telephone cable, which is expected to meet the phone and telegraph requirements between Canada and Europe for the next 20 years, will be completed by mid-1961, the British post office announced Thursday. The \$9,000,000 cable, running from Scotland to Newfoundland, will be jointly owned by Canadian Overseas Telecommunications Corporation and Cable and Wireless Limited.

SKATER'S FURS STOLEN

CHICAGO (AP) — Police said Barbara Ann Scott, former Canadian figure-skating champion, and her husband, Tom King, Thursday reported burglars helped themselves to \$15,000 worth of furs, clothes and jewelry while they were vacationing in Arizona recently. The couple said the theft was discovered Feb. 21 by officials of their apartment building. Included were furs valued at \$10,500.

HEAVY HAUL

ST. ANSELME, Que. (CP) — It was a heavy haul — in one sense—for thieves who Wednesday night stole a safe from the co-operative store in this community 25 miles south of Quebec City. The safe weighed 400 pounds but held only 50 cents in cash.

FIND CORPSE IN TRUNK

MEMPHIS, Tenn. (AP)—A 200-pound dead man was found crammed in a wardrobe trunk at the railway depot baggage room Thursday. The trunk was shipped here from Chicago. Homicide Capt. W. W. Wilkinson said the unidentified Negro man had been shot in the chest. The body was fully clothed. The trunk had been at the baggage room since Feb. 11.

SEIZE NAIL POLISH

NEW YORK (AP) — Government agents Thursday began seizing TenDay press-on nail polish which was ordered off the market by the United States Food and Drug Administration. The FDA said "approximately 700 women have complained to the manufacturer and the FDA of injury to their nails after using the product."

TO AWARD SCHOLARSHIPS

OTTAWA (CP)—The Canadian Good Roads Association Thursday announced it will award five \$2,000 scholarships in 1958 to Canadian engineers for post-graduate study of highways and highway transportation. Funds for the scholarships are being con-

tributed by Canadian firms "to stimulate scholarship in the highway field."

FALLS INTO NIAGARA GORGE

NIAGARA FALLS, Ont. (CP)—Police and firemen used an aerial ladder Thursday to rescue a Toronto woman who fell into the Niagara River gorge. The woman, identified as Ruby May Harper, about 25, was reported in good condition later in hospital. An unidentified man said he noticed the woman walking along the edge of the gorge a short distance downstream from the Rainbow Bridge. When he looked again the woman was not in sight. Then he heard cries for help.

There just have to be more schools

Right now, over 3 million children are registered at elementary and secondary schools in Canada. During the next 10 years enrollment will grow to at least 4 million. Accordingly, many new schools will have to be built.

The financing of new schools is undertaken by the school boards and municipalities with Provincial Government assistance, and they usually issue debentures in order to spread the cost over a period of years.

Life Insurance Companies have supplied a large part of these funds and today they hold 25% of all outstanding municipal bonds in Canada. Thus, part of the money paid by you in Life Insurance premiums may return to your community to help build schools for your children.

Such investments by the Life Insurance Companies in Canada on behalf of their policyholders contribute to Canada's growth and progress, important to everyone.

A STRONG

Diefenbaker government

Today B.C.—and Canada—stand on the brink of really big things.

In the words of the Prime Minister, "everything without regard to limit" will be done to provide work for Canadians and an opportunity for the better things of life—through vigorous development of our resources, increased foreign trade, social security and moral leadership among the nations.

The continuance of these vital tasks is the pledge of your Diefenbaker Government, which has already fulfilled so many of its 1957 promises: to taxpayers, home-builders, senior citizens, agriculture, industry . . . and YOU.

Now let's get moving—with these twenty-two outstanding members of John Diefenbaker's B.C. team!

Druggists Fined For Selling Pills With Prescription

TORONTO (CP) — Cases of 14 metropolitan Toronto druggists charged with selling tranquilizers, sedatives, and pep-up pills without prescriptions were heard in court Thursday. Four druggists were fined a total of \$150.

Thirteen others were fined a total of \$2,700 last week. Federal health department officials said 127 charges were the result of a coast-to-coast investigation of drug stores in January and February of 1957. Of 2,300 premises visited, 230 were in the Toronto area.

BACKACHE May Be Warning

Backache is often caused by lax kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Get Dodd's Kidney Pills now.

Urges Gov't to 'Show a Little Faith in Pupils'
TORONTO (CP) — Opposition members in the legislature Thursday accused the government of mistreating youth in demanding examinations for loans made from the new \$3,000,000 student aid fund.

CCF leader Donald MacDonald said the Saskatchewan government has issued 4,000 loans from its fund in the last six years "and not a single one has yet defaulted."

He asked: "Why don't you show a little faith in Ontario students and not saddle their parents with such an obligation?"

Premier Frost said co-signatures would be needed on the loans because contracts signed under the age of 21 are not legally valid. But the government is willing to permit students to assume loans upon reaching 21, thus releasing their parents,

OVER 2,000 members of the radical Sons of Freedom sect of Doukhobors in B.C. may return to Russia to escape what they call persecution in Canada. But already the proposed migration has caused a split in Doukhobor ranks. Several families have ended their war with educational authorities and sent their children to regular public schools. Spokesmen for the Doukhobors, however, have said they plan to recommend that their followers return to Russia and settle in one of two areas far beyond the Ural Mountains. One choice is the Osk area, main centre of which is the city of Omsk, 1,400 miles southeast of Moscow. Another possible choice is the Altai region, another 600 miles southeast of Omsk. The chief centre of the Altai region is the town of Barnaul.

Claims Doukhobor Split is Widening

VICTORIA — (CP) — A rumour by the government when parents are split in the ranks of a Doukhobor sect planning to return to Russia has been known to the government for about a year, Attorney-General Robert Bonner said Thursday night.

Mr. Bonner said that the split has become more defined now that the off-shoot Sons of Freedom sect has made plans for a move to Russia.

"There appears to be a move afoot among a small group of parents to take their children out of New Denver and place them in public schools."

New Denver school was set up by the government when parents are split in the ranks of a Doukhobor sect planning to return to Russia has been known to the government for about a year, Attorney-General Robert Bonner said Thursday night.

Mr. Bonner said that the split has become more defined now that the off-shoot Sons of Freedom sect has made plans for a move to Russia.

'Raintree' Will Earn \$5 Millions

By BOB THOMAS

HOLLYWOOD (AP) — MGM expects Raintree County to bring in \$5,000,000 domestically, and the company appears to be surprised. It shouldn't be.

Film companies have a tendency to become panicky by early misgivings and poor reports of a movie. That was true of Red Badge of Courage, which MGM virtually scuttled. The film was slashed to ribbons and thrown away on the bottom half of a double bill. In the original John Huston version it surely could have made a good return on the art circuit and later done at least fair in general release.

The picture did poorly in its initial run here, being overpriced and opening at a time when movie business was in the doldrums because of Asian flu.

etc. A cruel joke was making the rounds about the man who called the theatre to ask what time Raintree was going on. "When would you like to see it?" was the answer.

PROVES ITSELF

But now the picture is proving itself. It is doing fine business in subsequent runs, and at more reasonable prices. Every night I see big crowds at my neighborhood house, where it is still running after three weeks.

MGM had nothing to be ashamed of with Raintree. It is as good as Gone With the Wind. But what is it? It gives a good picture of the northern side of the American Civil War, so seldom seen in films. It has some great photography and good performances, including the best one Liz Taylor ever gave. Lee Marvin also does a job that merits Academy recognition.

Drawbacks were the lack of plot surprises and Montgomery Clift's performance. Clift's trouble was physical, since he was in a serious auto crash in the middle of the film. With his jaw wired together, he wasn't up to the exhausting demands of the leading role.

As long as we're diagnosing movies, let's consider Love in the Afternoon. It was hailed by the critics, yet won no Oscar nominations and did disappointing business.

Perhaps the answer was in Gary Cooper's character. He played an out-and-out cad whose sole aim was to seduce Audrey Hepburn. And he succeeded. Folks didn't like good old Cooper playing the louse.

SALLY'S SALLIES

"As you can see, Mother, he's a perfect gentleman—till he takes me out."

CONTRACT BRIDGE

By B. Jay Becker

(Top Record Holder in Masters' Individual Championship Play)

You are South, both sides vulnerable. The bidding has been:

West North East South
1 ♠ 1 ♠ 2 ♠

What do you now bid with each of the following four hands?

1. ♠Q842 ♥AKJ75 ♦8 ♣K96
2. ♠742 ♥AK875 ♦94 ♣Q85
3. ♠64 ♥J2 ♦KJ5 ♣AKQJ43
4. ♠KQ54 ♥Q8 ♦73 ♣AJ842

1. Four spades. In general, an overall in the one level indicates a hand of less than opening bid proportions, and is aimed at competing for a part score rather than game. The suit that is bid is usually of good texture, and the overall is based on the trick-taking potentiality much more than high card points.

North's spade overall must be read in the light of these principles. A spade in spades looks extremely likely, and the best way to get there is to bid it directly. A jump to three spades, though it would urge partner to go on to game, is not forcing opposite an overall, and might result in a pass from North. The heart suit need not be shown. To do so could only confuse the issue.

2. Two spades. Again, the hearts are not shown. A spade fit having already become established, it is better to tell partner about it than to bid two hearts, which tends to deny spades. If the

opponents go on to three diamonds, the hearts can be mentioned. To bid two hearts immediately might create a difficult problem of what to do next if the opponents then bid three diamonds.

3. Three notrump. Admittedly, this is a gamble, but the prospects are very good. With seven rapid winners, assuming a diamond lead, it is not too much to hope that partner will produce two tricks for his overall.

Although a three club bid would be quite sound, it is not apt to stir any great interest in North and does not begin to reveal the notrump potential. In some hands, it is best to blast your way into game or slam and cast science to the winds. It's not wise to wait around for pat hands before making your move.

4. Three spades. Here the co-operative approach is used. Whether or not a game can be made depends on how good partner's spade overall was. In effect, North is being told to continue to game if his spade bid was of the better sort.

There is no point to jumping to four over a bid which might have been intended only as a competitive effort. Partner requires a hand very close to an opening bid if ten tricks are to be made. The decision should be left to him.

Librarian Shortage Described as Crisis

OTTAWA (CP)—Canada's present — and future — need for librarians is a "national crisis," says a Canadian Library Association survey.

Drawing from reports by 180 libraries throughout Canada, the survey found Canada now needs 250 professional librarians and will need 988 by 1967.

Even those estimates are "conservative," Erik Spicer of Ottawa, CLA recruitment survey chairman, said in his report.

"The shortage of librarians is not only immediate, but likely to continue," the report said. "The main reason for our particularly desperate position would appear to be financial," the report said. Library jobs paying

salaries that allowed a reasonable standard of living for a family man were too few.

Low salaries also affected recruiting and the maintenance of professional standards. Reports indicated that even in large libraries, department heads were paid inadequate salaries.

"We want the best type of person we can afford in our executive positions. We must, therefore, have salaries in line with responsibility."

Canada now has about 2,000 professional librarians. The report indicates the types of librarians most needed are those for circulation, reference, children's and school libraries and cataloguers.
